EXPERIENCE

Junior Full Stack Developer
Mate Academy(March 2022 - Dec 2023)

SKILLS

JavaScript/TypeScript: Developed robust and scalable solutions using JavaScript and TypeScript. Gained a deep understanding of these languages and their use in both front-end and back-end development.

React/Redux: Built dynamic and interactive web applications using React. Managed application state using Redux, improving efficiency and usability.

Next.js: Utilized Next.js for server-side rendering in React applications, improving performance and SEO.

Node.js/Express: Created back-end services using Node.js and Express, implementing RESTful APIs, handling requests and responses, and managing asynchronous operations.

GraphQL/Apollo*: Implemented GraphQL schemas and resolvers for efficient data fetching. Used Apollo Client for state management in React applications.

Firebase: Used Firebase for user authentication, database management, and hosting.

MongoDB/Prisma/Mongoose: Managed databases using MongoDB. Utilized Prisma for database schema migrations and Mongoose for object modeling.

Tailwind: Styled web applications using Tailwind CSS, a utility-first CSS framework.

Docker/Kubernetes: Containerized applications using Docker and managed them using Kubernetes, improving scalability and reliability.
